If the not over-advertised STM had been funçtioning any better the a.m. of 2/22 there would have been still another proof that mine isn t, for I recalled no such justification for Liebeler's interjection. However, there was extensive editing by KT of his testimony andm of Jenner's q's. Lil and I started a word-for-word check. Schoener took it over, I got typescript, and he says it is lost. In addition, there was much palaver with KT, so the testimony may not be the only version. Thanks for returning the extra copy. Maybe I intended the second for HR, but he got the note and will know if I did and forget it. ...Also note what this says of Thornley, that LHO was an Orwellian Communist? KT is and was nuts, but not that nuts. Esp. when he said that LHO broke off after he red-baited LHO. A red LHO would have had nothing to do with KT in any of his political colors, all black or brown.
